

Thank you for shopping at Hubeco!

We value the trust you ("**you**" or "**your**") place in Hubeco Green Ventures Private Limited ("**Company**" or "**us**" or "**we**" or "**our**") by accessing and using our Platform <https://www.hubeco.market> ("**Website**"), our Services and any of our other websites, mobile or digital applications, or any other services we offer from time to time by or in connection therewith (together "**Platform**"). Our goal is to provide you with good quality products and services that exceed your expectations. Sometimes, however, when your order arrives, you may realize that the product isn't exactly what you expected. Understanding the significance of fair returns, refunds, and cancellations, this Return, Refund, and Cancellation Policy ("**Policy**") is designed to streamline the process for product returns and cancellations on our Platform.

Please note that this Policy applies exclusively to products purchased from our Platform and should be subject to the terms and conditions outlined in the [Terms of Use](#), [Terms of Sale](#) and [Delivery and Shipping Policy](#).

RETURNS:

1. What can I return?

Items which are explicitly marked as "returnable" on the product detail page and fall within the specified 'return window' period are eligible for return.

All our products go through intense quality checks before they are shipped. However, there might be instances where a product is damaged during transit. If you have received a damaged, defective, or wrong product, you can return the eligible items. Items that are physically damaged, defective, have missing parts, or differ from their description on the product details page can be returned.

The refund policy for any **defective and damaged orders** will also be guided by the respective vendor's specific refund policy and buyers are encouraged to refer to the vendor's policies for detailed terms and procedures regarding these options.

2. What are the items that cannot be returned or replaced?

- 2.1. The following items shall not be eligible for return/replacement:
 - 2.1.1. Any item which is damaged or broken;
 - 2.1.2. Any item which has been used already;
 - 2.1.3. Any damage/defect that is not covered under the vendor's warranty; and/or
 - 2.1.4. Any product that is returned without all original packaging and accessories, including the box, vendor's packaging if any, and all other items originally included with the products delivered.

3. What qualifies as a damaged/defective/wrong product?

Products shall be considered to be damaged / defective / wrong in the following cases:

- 3.1. The product seal is broken and/or there is a leakage;
- 3.2. The product arrived with missing components or specifications;
- 3.3. The product arrived in a different quantity / size than what was ordered;
- 3.4. The product arrived in a different material than what was ordered;
- 3.5. The item does not match the product description;
- 3.6. The entire product is missing from the box even if the box is not tampered with;
- 3.7. The shipping box is damaged or tampered with.

4. Who is eligible for Returns and Refunds?

Return is a facility provided by respective vendors directly under this Policy in terms of which the option of exchange, replacement and/or refund is offered to the buyer. *One small caveat: all products or items listed on the Platform may not have the same return policy.*

Buyers should be aware that the payment facility may not be fully available for certain product categories, services, or transactions. In such cases, you may not be eligible for a refund. Refunds, when applicable, are conditional and may be subject to recourse by the vendor in case of misuse by the buyer. Additional verification documents may be requested for processing of returns and refunds.

If the vendor's policies allow for returns and refunds, buyers can request returns through our Platform, following the process as outlined in this Policy.

5. How can I return the item?

Products received from the Platform may be returned, subject to the specific return policies of the respective vendor from whom you made the purchase. When you return an item, you may see different return options depending on the vendor, item, or reason for return.

To initiate the return process for eligible items you've purchased from our Platform:

- Visit the [My Orders] section on our Platform to view your recent purchases.
- Select the specific order and choose the option for **Return or Replace Items**.
- Pick the item you wish to return and indicate the reason for the return from the provided menu.
- Decide on your preferred return method. If applicable, specify whether you prefer a refund or replacement. For items sold by third-party vendors, you may need to **submit a return request**, which is subject to review by the vendor.

If you have chosen to replace the items, a replacement order will be created. The replacement order may be shipped only after the vendor receives the original item(s) in the exact condition it was sent to you. This Policy applies as long as the items are unused, undamaged, and with all original tags & packaging intact. In the event that the vendor offers returns, the vendor shall notify you about the expected pick-up date of the product that you wish to return. Each return label is assigned to a specific return. To receive the correct refund, don't include items from multiple orders or shipments in the same box.

Additionally, buyers may only be eligible for a one-time replacement under this Policy, subject to the terms provided herein.

Some return-eligible items sold on our Platform may have a free or paid return option, depending on the item, the vendor's policies and subject to the terms set out in this Policy.

6. What is the timeframe or return window within which I can request a return or replacement for an item?

The return window or timeframe within which you can request a return or replacement for an item may vary and depends on the vendor's return policy which is provided alongside the product details for online purchases. For offline orders, the return and replacement terms will be specified by the vendor. It is important to review the concerned

vendor's return policies to understand the applicable return timeframe and conditions. Failure to initiate a return or replacement request within the timeframe specified by the respective vendor will be deemed as acceptance of the delivered order.

However, please note that different products may have varying timelines for returns, and some items may be non-returnable. Always check the product details at the time of making a purchase.

7. Can I request the replacement of the product to a different address?

Replacement cannot be delivered to a different address. We recommend returning the item for a refund and placing a new order with the new address.

8. What if my return is not processed?

You must report an unprocessed return to the vendor within **seven (07) days**. In case there is no response or update on your return request from the vendor, you can contact us through the Platform functionality that may be through available communication windows, or utilizing communication windows, or through our admin support staff to ensure the issue is resolved promptly.

REFUNDS:

9. When will I receive my refund?

Once the vendor receives the returned product, the vendor will inspect the returned product to determine the state of the product and eligibility for a refund or replacement. After inspection, the vendor will approve the return or replacement request and the request will be initiated for your order. Usually, the refund is processed within five (05) working days of receipt of the returned product. The paid amount shall be returned to the same source from which the original payment had been made. However, the actual refund timeline may vary depending on your payment method and banking institution.

Note:

- Please note that a refund within 5 working days indicates that you must wait until the end of the 5th working day for a refund update.
- If the refund is issued to your credit card account, your card provider may take additional time to update the statement. Please check your latest bank account statement to confirm the refund, it will be visible in the 'Unbilled Transactions' section in your credit card statement. If you do not see the 'Unbilled Transactions' section in your credit card statement, please contact your card provider for the refund confirmation.
- Make sure to add/update the correct bank account details in your account for refunds to be successfully processed.

10. What if my refund is not processed by the vendor within a specified timeframe?

If your refund is not processed by the vendor within a specified timeframe, we shall issue a refund directly to you upon the vendor's confirmation that they have received the returned product in its original state and is not defective. There is a window for processing vendor's invoices which aligns with your return window. Post the return window, you cannot return the products. We ensure that you are not returning the products prior to the processing of vendor invoices. Once there is a confirmation from you about order fulfilment, the vendor's invoices are processed.

CANCELLATIONS:

This section will guide you on rules and guidelines for cancelling orders placed on the Platform. The Platform holds the right to accept order cancellations and may, at its discretion, modify time windows or waive cancellation fees.

11. Can I cancel my order?

You may cancel your order if it is allowed by the concerned vendor as order cancellation policies vary from vendor to vendor. Some vendors may not accept cancellations once an order has been placed. Generally, you can cancel your order before we send the dispatch confirmation email relating to that order. No order can be cancelled once it's out for delivery. However, the time window for cancellation varies based on different product categories and vendor's cancellation policy. It's important to check and initiate cancellations within the specified timeframe. The order cannot be cancelled once the specified time has passed. To cancel your order, go to the [My Orders] section and select the order to cancel by selecting the [Cancel Order] option.

12. What happens when I cancel my order?

A "**Cancellation Fee**" may be imposed on you for cancelling orders on the Platform if the cancellation occurs after the expiry of the cancellation period applicable to the concerned product after the order placement, but before the dispatch confirmation email has been sent to you.

The Cancellation Fee shall be deducted from the amount paid by you for the said cancelled order. The Company reserves the right to modify/waive the Cancellation fee from time to time upon confirmation from the concerned vendor and in accordance with the cancellation policy (if any) applicable to such order. The Cancellation fee shall be quoted in Indian Rupees. You shall be solely responsible for compliance with all applicable laws for making payments to the Platform or the vendors (as the case may be) on account of any cancellation of orders from your end.

13. Can the vendor cancel my order?

Yes, the vendor retains the right to cancel orders at its sole discretion. The vendor retains the right to cancel any order placed by the buyer on the Platform at its sole discretion and the buyer shall be intimated of the same by us and/or the vendor by way of an email / SMS. The vendor may cancel an order wherein the quantities exceed the typical individual consumption, depending on the sole discretion of the respective vendor.

In case of such cancellation by the vendor, any transaction price paid by the buyer shall be refunded to the buyer by the Company.

Further, the vendor may cancel and block orders and buyers for fraudulent transactions. If an order is considered suspicious due to multiple quantities across various orders under the same buyer details, we or the vendor reserve the right to cancel or reject such orders, initiate refunds, and permanently block buyers from future transactions without notice. Additionally, any fraudulent activities, such as returning fake/old/damaged products, may result in restricting the buyer's future transactions or permanent blocking without notice and liability.

14. What are the types of orders that cannot be cancelled?

Where the vendor's policy indicates that cancellation shall not be available for a specific product, the order for such products cannot be cancelled.
