

Thank you for shopping at Hubeco!

We value the trust you (“you” or “your”) place in Hubeco Green Ventures Private Limited (“Company ” or “us” or “we” or “our”) by accessing and using our <https://www.hubeco.market> (“Website”) our Services and any of our other websites, mobile or digital applications, or any other services we offer from time to time by or in connection therewith (together “Platform”). We always try our best to provide you with satisfactory products that exceed your expectations. Once you place an order on our Platform, our team works diligently to ensure your products are packed securely and dispatched in a timely manner. This Shipping Policy (“Policy”) is designed to outline the process and terms for the shipping of products purchased on our <https://www.hubeco.market> website.

Please note that this Policy applies exclusively to products purchased from our Platform and should be subject to the terms and conditions outlined in the [Terms of Use](#) and [Terms of Sale](#).

1. How long does it take to process and prepare my order for shipment?

Orders are typically processed within 3-7 business days. Once your order is confirmed, the packing process is initiated to ensure your items are prepared securely for shipment. Please note that for each vendor, the delivery timelines may vary. You should refer to the delivery timelines specified on the product details page for accurate information.

2. Are there any delivery charges for shipping my order?

Delivery charges are determined by each vendor and are in accordance with their specific shipping policies. We recommend that buyers review the order summary to understand the delivery charges associated with items ordered.

3. How are delivery charges/shipping costs determined?

Shipping costs are determined and set by the vendors during the onboarding of their products. In case of online orders, the calculated shipping fees will be displayed at checkout before you complete your purchase, ensuring you have full transparency of the costs associated with your order. For offline orders, the vendors will specify the delivery timelines and shipping costs in the quotations they send to you.

4. What shipping methods are available to buyers?

We currently offer standard shipping. This method ensures that your order is delivered efficiently and securely within the estimated delivery time frame.

5. Do shipping options vary based on the type, size, or destination of the product?

Yes, shipping options vary based on the product type, size, and destination. Some products may require truck transport, while others can be shipped using regular methods through courier agencies. Additionally, certain items may need to be shipped via cargo. The appropriate shipping method will be selected to ensure the safe and efficient delivery of your order.

6. Which shipping carriers or providers facilitate the delivery of my order?

The choice of shipping carriers and providers may vary depending on the vendor. Each vendor selects their preferred shipping partner based on factors such as location, shipping requirements, and product type to ensure efficient and reliable delivery.

7. What is the expected delivery time?

The estimated delivery time is contingent on various factors and may differ from one vendor to another. Typically, vendors dispatch items within the stipulated time frames mentioned on the product page. The delivery timeline is influenced by the following factors:

- The vendor's terms;
- Availability of the product with the vendor; and/or
- The delivery address of the buyer.

If a vendor does not deliver to your area, you will be notified when entering the address during the order placement. In such instances, we recommend choosing a vendor that ships to your location to prevent any inconvenience.

8. Can I track my order?

Yes, you will receive order tracking information. It is provided through the buyer module and messaging service. When you log in to your account, you can view the tracking status of your orders. Vendors update the status of each order through the vendor module, ensuring that you have up-to-date information on your shipments.

9. What should I do if my tracking information is not updating?

In rare cases, tracking information may not be updated immediately. If there's a prolonged lack of updates, please contact our customer support, and we'll investigate the issue promptly.

10. What if I provided the wrong address for the delivery of my order?

Any issues arising from an incorrect address are the sole responsibility of the buyer. If the delivery is unsuccessful due to an incorrect address provided by you, the order will be returned to the vendor. The vendor will be eligible for payment upon confirming the fulfillment of the required timelines. If you do not respond within the specified return window or the package is refused due to the incorrect address (varies from vendor to vendor), no refund will be issued.

11. Can I change the delivery address while the order is in transit?

Unfortunately, we cannot change the delivery address once the order is in transit. Please ensure the accuracy of your address during the checkout process.

12. What happens if I am not available to receive my order during delivery?

If you're unavailable during the delivery, please note that leaving the package in a secure location or the option of subsequent delivery may not be feasible as vendors do not have warehouses in every city and typically your order is shipped directly from their manufacturing premises. However, some vendors may have the ability to manage this, so the approach can vary based on the vendor's delivery policy.

13. What happens if I refuse to accept the delivery of the order?

If you refuse to accept the delivery of the order, the order will be returned to the vendor. Upon confirmation that the vendor has fulfilled the required timelines and you have not responded within the return window or refused delivery (that may vary from vendor to vendor), you shall get no refund for the same.

14. How do you handle lost, damaged, or delayed shipments?

Vendors are responsible for managing all shipments through their logistics partners. We support vendors and buyers by maintaining frequent communication to resolve any issues that arise.

15. Who is responsible for any damage to the orders after dispatch or once delivered?

Prior to the delivery of the product, the responsibility for any damage shall lie with the vendor. Once delivered, the buyer shall be responsible for any damage. We do not assume liability in this regard.

Buyers are strongly encouraged to conduct a thorough inspection of the products upon receipt to address any concerns promptly.

16. What if the delivery of my order is delayed?

We strive to ensure timely delivery for all our orders. However, there may be instances where orders arrive after the estimated delivery date. If you experience a delay, we recommend taking the following steps:

Track your package: Confirm the estimated delivery date in the [My Orders] section by tracking your package.

Verify your shipping address: To prevent delivery issues, ensure your address information is accurate and up to date in your profile and in the [My Orders] section. You can also add delivery instructions to your addresses.

Check payment processing: Review the payment processing status in the [My Orders] section to ensure there are no issues.

Wait 48 hours: Allow for an additional 48 hours to account for any unexpected delays.

Taking these actions will help you stay informed and address any potential issues related to the delivery of your order.

17. How can I report the delayed shipment?

In case you do not receive the delivery within 5 (five) days of the estimated delivery date, please contact our customer support with your order and tracking details. We will investigate the issue and provide assistance.

18. What should I do if my order arrives damaged?

If your order arrives damaged, please take photos of the damaged items and packaging. Contact our customer support with the images, and your order details, and we will assist you with the next steps.

19. What happens if my order is marked as delivered but I haven't received it?

If your order is marked as delivered but you haven't received it, please check with neighbours or building managers to see if they have accepted the order on your behalf. If the issue persists, please reach out to our customer support team for assistance.

20. How to report any other issues I have regarding the shipment of my order?

You can report your concerns and issues with your shipments by emailing us at info@hubeco.market or calling the support contacts provided by us on our website.

21. Are there any international shipping options available?

As of now, we don't deliver items internationally. Please ensure the delivery address is in India.

22. Can I request expedited shipping for my order?

Yes, you may have the option to select expedited shipping during the checkout process. Please note that accepting the request for expedited shipping shall depend on the respective vendor and such additional charges may apply for expedited shipping.
